About Cypress Cove

Since 1964, Cypress Cove Nudist Resort & Spa has been the preferred location for clothes free vacationers from around the world. Our nearly 300-acre facility includes a 50-acre lake, 130 acres of protected wetlands, 20 acres of recreation and even a residential community. Accommodations include 84 villa hotel rooms and apartments, and a modern campground/RV park.

First time visitors to Cypress Cove discover that people do come in all shapes and sizes, and that — as far as our bodies are concerned — all of us have nothing to hide. You may adjust at your own pace, letting the weather and comfort be your guide. Once you've socialized in the nude, you realize what an enormous impact what we wear has on who we are. Clothing can lock us into expected roles and behaviors, contributing to the tensions of daily life.

Our clientele is primarily made up of couples and families. Single males must qualify to visit (call ahead). All members of AANR or other nudist clubs or organizations are welcome.

Our culture and values are based on very simple principles; we promote family oriented nudism, which should be wholesome and non-sexual. If you choose to visit Cypress Cove, you are accepting these core principles and agreeing to abide by them.

We have great fun at our dances, but suggestive attire and/or dancing are not welcome. We appreciate a tender moment between two adults in love, but public displays of affection should be discreet and innocent. Adventures in the bedroom should always be kept private. Discussions of swinging and recruiting are definitely not welcome here.

Our goal is to maintain a safe, non-threatening, and non-sexual environment where our guests can truly feel comfortable. A little "adult fun" may be harmless in a private setting, but it's just not appropriate at Cypress Cove. That's not who we are. If you agree, we hope to see you by the pool!

About Ribbon Riders

Ribbon Riders, Inc. is a 501(c)(3) non-profit, charitable organization whose mission is to provide direct financial, emotional and physical support to women and men battling breast cancer in Central Florida. We're working professionals, mothers, sisters and daughters who found purpose in our community through our love of motorcycles. Our riding unites us, but making a difference in the lives of those in need is what fires up the engines.

Since inception the mission has been clear — to provide hope, relief and assistance to those battling breast cancer. And to raise awareness, not just about breast cancer, but about the financial and emotional burden placed upon those who must undergo treatment. Our funds aid breast cancer patients struggling to make ends meet due to these added financial pressures. All of our members volunteer their time and resources, without monetary compensation, to assure that we help as many patients as possible.
