

2nd Grand Prize

NexiGo PJ40 Projector with WiFi and Bluetooth Projector for Outdoor Movies. Compatible w/TV Stick, iOS, Android

With 1920 x 1080 native resolution and 700 ANSI lumen brightness, the NexiGo PJ40 home projector provides high-resolution images that are crisp and clear. The PJ40 (Gen 3) can be calibrated to D65/D75 color accuracy ΔE less than 3, which is imperceptible to the human eye. The built-in 20W Powerful built-in speakers provide an enhanced auditory experience, while Bluetooth 5.1 easily connects the projector to headphones, speakers, and other audio equipment. It is great for both indoor and outdoor uses, making it the perfect choice for movie nights, game nights, and backyard gatherings.

projector offers 60-100% zoom, enabling screen adjustments up to 300 inches without relocating the projector.

wireless screen mirroring for IOS, Android, and Windows devices. With 5GHz Wi-Fi technology, you can easily display the screen of your devices without extra adapters or apps. (Note: Netflix, Amazon Prime Video, Hulu, and some similar apps do NOT support screen mirroring due to copyright protections.) It has multiple ports, including 2 x HDMI (HDMI 2.0 and CEC supported), 2 x USB, AV, RJ45, and a 3.5mm audio port

AAJK 120-inch Portable Projector Screen with Stand

Premium Wrinkle-Free Material: AAJK projector screen is made of soft, elastic polyester fiber, offering a thick, light-tight surface. Remains wrinkle-free even after folding or washing, ensuring a clear, flawless display.

Portable and Lightweight: This portable projector screen is lightweight and folds compactly, perfect for home, office, or on-the-go. Easily carry it to meetings, events, or outdoor gatherings.

Features two bracket bases with a triangular design and windproof cords to prevent shaking, ensuring stable projection.
